

HOLLAND FIFTH WHEEL AIR CYLINDERS

Today's air cylinders face a hostile environment, from road salt chemicals to contaminated air systems. That is why HOLLAND Air Cylinders are built with the durability necessary to stand up to the elements. Manufactured with non-welded construction and corrosion resistant materials, HOLLAND Air Cylinders are made to last. Don't be fooled by imitation low-cost replacement air cylinders, not only will they prematurely wear out, they will limit the performance of your HOLLAND sliding fifth wheel. Make sure your next replacement air cylinder is the same original quality that came with your HOLLAND sliding fifth wheel.

HOLLAND Fifth Wheel Air Cylinders provide corrosion resistance and long life with the following features:

- 1 STAINLESS STEEL**
cylinder and piston rod to eliminate corrosion.
- 2 "E" COATED END CAPS**
provide maximum corrosion resistance.
- 3 ONE-PIECE STEEL PISTON**
rubber coated and features dual wiper seals for smooth, efficient operation.
- 4 DIE STAMPED CLEAVISES**
riveted to the rod end and end cap for straight line actuation alignment.

FIVE YEAR WARRANTY

Only HOLLAND Fifth Wheel Air Cylinders come with a five year warranty. With the maximum in corrosion resistance and cylinder service life, you can always count on our cylinders to outperform the rest.

CORROSION RESISTANT STAINLESS STEEL SLIDING FIFTH WHEEL AIR CYLINDERS (XA-2524-R shown)
