Place your top plates, rebuild kits, kingpin gauge and choice of lock tester order through normal channels. The display stand will be shipped separately from the lock tester and kingpin gauge, to the same dealership address as the order.

FAQs

When do I need to rebuild?

The rule of thumb is when the fifth wheel is at maximum adjustment and there is 1/8 inch or more kingpin movement.

More questions regarding rebuilding your fifth wheel?

Can my fifth wheel be too worn out to rebuild?

Yes, be sure to inspect your top plate before rebuilding. Use our handy checklist. Visit our website and refer to XL-SB058-01 - www.safholland.us
